THE COBRATEC ETHOS

At CobraTec, we believe a high-quality tactical knife should be something you're proud to carry—and something you can actually afford. From day one, our mission has been simple: build dependable, well-crafted knives that deliver real value without cutting corners or inflating prices. We focus on thoughtful design, reliable materials and practical features that make sense for everyday carry.

Rather than chasing luxury markups, we're committed to innovating where it matters most. By refining manufacturing, materials and design, we're able to offer modern features and proven performance at prices that don't break the bank. Our goal is to make innovation accessible so more people can carry a knife they trust, use daily and rely on when it counts.

CobraTec was founded as—and will always remain—a small, family-owned business rooted in Central Texas. We're passionate about serving our community, supporting our nation's first responders and standing behind every knife we sell.

That's why every CobraTec knife is backed by a lifetime warranty: if something goes wrong, we'll fix or replace it—whether you bought it yesterday or ten years ago. No matter your style or purpose, we hope you find a CobraTec knife that fits just right.

OTF KNIVES

CTK - 1

CTK-1 DOUBLE ACTION OTF KNIFE

The CTK-1 is a reliable, Everyday Carry Out The Front (OTF) knife built for versatility and performance. It features a high-grade aluminum alloy handle paired with a durable D2 steel blade for strength and edge retention.

Designed for both right and left-handed users, the ambidextrous pocket clip can be mounted on either side of the handle. Additional features include a built-in glass breaker for emergencies.

FS - 3

FS-3 DOUBLE ACTION OTF KNIFE

The FS-3 is a durable, Everyday Carry Out The Front (OTF) knife designed for dependable performance. It features a high-grade aluminum alloy handle paired with a premium D2 steel blade for strength and edge retention.

The dual-action mechanism allows smooth blade deployment and retraction using a single control switch. An ambidextrous, reversible pocket clip supports both right and left-handed carry. Additional features include a built-in glass breaker for emergencies.
